## PROFESSIONAL SUMMARY

I am a front-end developer. I chose this area for my further development, because IT is a world in which there is everything that suits me: rapid development, interesting projects and constant communication. I am a quick learner, take criticism objectively and appreciate it. With me in the team, you will get a person who appreciates the result, knows what he is striving for, and most of all wants development.

## EXPERIENCE

### HiWeber, Kyiv – *Front-end Developer*

MAR 2022 – OCT 2023

I have been working as front-End developer. I have developed VueJS-project from scratch. I have been using technologies like HTML/SCSS, Javascript, Vue, Vuex, Vue Router. Writing easy tests with Cypress.
